

The AB Shine

Our new Star-Shine line of burs is an exceptional array of burs designed to treat Zirconium Abutments and prevent their cracking. The burs enjoy a high level of roughness due to the variety of grains' size. This roughness assists in maintaining low temperature.

The variety of burs facilitates the Doctor's leeway:

- PR15 – Rounded head burs for side sharpening.
- K2, PR2 – Versatile burs for all abutments' sides.
- A3, A4 – Rounded head burs for sharpening the abutments' top corners.
- T2, E5, E7 – Burs for sharpening the parts above the anatomic level.
